OUR TECHNOLOGY

Genfo presents Bio-systamic[®] controlled release technology ie 4D release mechanism of

1. DISSOLUTION
2. DIFFUSION
3. DISPERSION
4. DELIVERY

- ◆ Dissolution of biochemical layers.
- ◆ Diffusion of active drug from microforce of layers.
- ◆ Dispersion of the released drug in a micronized form with a partical size of less than ten microns.
- ◆ Delivery that metabolized drug delivers fast.
- ◆ BIO-SYSTEMIC[®] controlled release technology provides smoother & predictable release and predictable duration of action that avoids dose dumping and minimize side effects and improves better patient compliance. Few of our products related on this technology

FUTURE SCOPE

- We have our products manufactured by the Top Pharmaceutical company like Windlas Laboratories which have WHO-GMP certification. In a few years, Genfo has become the icon of an Indian Pharmaceutical company. With dedicated pharmaceutical personnel and standardized practices, Genfo has been successful in attaining national accreditations and building trust in Efficacy, Safety & Quality.
- Within 5 years we will be able to have our own Manufacturing unit.
